

# VINCENT CHEN

vschen@stanford.edu || (732) 581-6317 || P.O. Box #17885, Stanford CA

---

## EDUCATION

---

**Stanford University**, Stanford, CA – pursuing B.S. in Computer Science **Class of 2018**  
• Relevant Coursework: Programming Abstractions; Computer Organizations and Systems; Vector Calculus; Modern Statistics and Data Analytics

**High Technology High School**, Lincroft, NJ – GPA: 4.0 / 4.0 **Class of 2014**  
• SAT: 2320 (Math 800, Writing 800, Critical Reading 720)  
• Relevant Coursework: Engineering Design; Digital Electronics; Software-Integrated Manufacturing  
• *#1 Best Public High School, Niche Rankings 2015*

---

## EXPERIENCE

---

**Stanford Student Enterprises • intern, advertising department •** Stanford, CA **Oct2014 – Present**  
• Designed mobile application to distribute coupons and deals for San Francisco Bay Area businesses  
• Utilized wireframe tools and iterative design methodology to gear user flow towards local college students  
• Facilitated the transition from print to mobile advertisement technologies

**Stanford Blyth Fund • risk management developer •** Stanford, CA **Oct2014 - Present**  
• Designed interface for mySQL database and user portfolio in investment management platform  
• Developed module allowing users to define benchmarks compare current portfolio

**Columbia University Biomedical Engineering • electrical engineer •** New York, NY **Sep2013 – Jan2014**  
• Implemented thermal cooling system for LED phototherapy unit through testing and internal redesign  
• Optimized signal processing for neonatal vital signs monitoring system in MATLAB  
• Collaborated with health professionals to target global health initiative in Mulago Hospital, Uganda

**Stevens Institute of Technology • research engineer •** Hoboken, NJ **Jun2013 – Sep2013**  
• Developed and fabricated PZT nanogenerator for energy harvest from ambient airflow  
• Utilized SolidWorks modeling software and simulation to iterate through testing and development phases  
• Recognized as Top 10 finalist of 2014 Monmouth Junior Science Symposium

---

## PROJECTS

---

**enCal • front-end developer •** CalHacks Fall 2014 • challengepost.com/software/encal **Sct2014**  
• Automated scheduling by extracting events from email and importing them into Google Calendar  
• Utilized natural language processing to extract event data from both plaintext and image formats

**Publication: “Piezoelectric Leaf Generator for Wind Energy Harvest” • co-author** **Aug2014**  
• Discusses novel PZT nanogenerator that harvests mechanical energy from ambient air flow  
• Published for American Society of Mechanical Engineers 2014 IDETC/CIEC

**HTHS Secret Santa • full-stack developer •** hths-secret-santa.tk **Sep2012 – Present**  
• Open source Secret Santa client for students at High Technology High School  
• Facilitated 197 gift exchanges among total student body size of 280  
• Features pairing algorithm and unique user preferences for optimized experience

---

## SKILLS

---

Java • C++ • JavaScript • python • PHP	<b>development</b>
HTML5 • CSS3 • jQuery • mySQL • Bootstrap 3	
arduino • Autodesk Inventor • SolidWorks • Multisim • L <sup>A</sup> T <sub>E</sub> X	<b>engineering</b>
photoshop • illustrator • indesign • premiere pro	<b>design / media</b>
microsoft excel • MATLAB	<b>research and data</b>

---

## ORGANIZATIONS

---

Businesses Association for Stanford Entrepreneurial Students (BASES) • Stanford Student Enterprises (SSE)  
HTHS Robotics Team (Vice President) • Technology Student Association (Vice President)
